

## Preface: MEC for Education

Warm greetings to Parents, Teachers, Learners and Communities of the Eastern Cape, and a word of gratitude for the opportunity to present the results of the Matric Class of 2015. Well done to all teachers and learners who burnt the midnight oil in 2015. But, time has come to account for the academic performance of the Department, and I am disappointed to announce the drop in the performance from 65, 4% in 2014 to 56.8% in 2015.

Having dispensed with the bad news, I would like to contextualise the Province's poor performance and then concentrate on the positive trends that can be extrapolated and derived from the results of 2015.

It is therefore, from this perspective that I would like to present to you the official Eastern Cape Department of Education Learner Performance Report for the National Senior Certificate (NSC) 2015 Examinations. The results are presented to you in the form of a booklets for your easy reference.

### 2015 CONTEXT

#### Achievements and Challenges

The 2015 Grade 12 results must be clearly contextualized as part of the general national performance in the NSC. Although, the Eastern Cape remains at the bottom of the ladder, all provinces, except for the Western Cape, have seen a drastic decline in the percentage pass rate of the Class of 2015. This decline can be attributed to many factors, amongst others, the negative impact of progressed learners, small and viable schools, the slow pace of closing the gap between the high cognitive demands in question papers and the pitching levels of teaching and learning in the classroom; and the weak monitoring of teaching and learning in our classrooms.

Despite our poor performance, we can be proud of the following noteworthy achievements:

- 100% delivery of LTSM before the start of the 2014 academic year
- 1,562 129 learners that are now benefiting from No Fee school policy,
- 55 537 learners that have access to scholar transport services,
- 1, 646 142 learners that are receiving a nutritious meal on every schooling day
- 27 514 learners are now able to access special and specialised education services
- 80,276 Orphan and Vulnerable Children (OVC) that have access to support

Notwithstanding, the department continues to be confronted by structural and systemic challenges that are in turn compounded by broader historical and the apartheid political economy legacy challenges. The negative effects of population migration patterns in search of greener pastures continue to create instability of learner numbers in the system, hence problems of imbalance between Post Provisioning Norms and budgets for the compensation of employees.

The impact of this instability is huge on teacher demand and supply in the Province. In mitigation, a number of progressive collective agreements were reached in the Education Labour Relations Chamber, including Collective Agreement No 1 of 2014 that seeks to move teachers additional to the establishment. In other cases we have experienced unprecedented demands for Afrikaans mother-tongue and Math teachers, and these are not always in abundant supply as required.

However, these challenge were addressed within the first quarter of the academic year, and despite these challenges, the majority of schools had teachers in front of learners at the beginning of the academic year.

#### What we did right in 2015.

The MEC for Education met all the principals of schools of the best- performing, the under-performing, the special schools and the technical schools between January and April 2015. The purpose of these sessions was to commend the well- performing schools and motivate the under-performing schools to raise their performance standards and encourage partnerships to achieve improved learner performance in a sustainable way.

The Department reworked its learner support strategy

and launched a Matric Count Down support program on the 14 May 2015 in Butterworth. The MATRIC COUNT DOWN support program is a teaching and learning campaign aimed at supporting learners and teachers directly at classroom level through a number of support packages. The target was to impact on:

- the number of schools that obtained 60% and below
- the number of Bachelor passes
- the number of Grade 12 learners who pass Mathematics
- the number of Grade 12 learners who pass physical Sciences

The Department provided a basket of support programs using a mixture of contact and multimedia approaches, including:

- 57 telematics Centres attached to schools to beam live Mathematics, Physical Sciences, Accounting, History, Geography, Life Sciences and Language lessons from the University of Stellenbosch. The lessons included Grades 10 and 11 classes for sustainability. Each Telematics Centre is designed to host a minimum of 5 other High Schools to benefit directly from these live transmissions
- 80 000 subject study guides and study tips material distributed to all schools with a Grade 12 class
- Saturday contact classes hosted by all 405 schools that obtained 60% and below pass mark
- Winter and Spring schools in all 23 Districts to support revision and preparations for the final examinations
- Mentoring and coaching programs to support school principals in the underperforming schools.

## **RESPONSIBILITIES**

A learner stays in our education system for an average of thirteen years, starting at Grade R and culminating with Grade 12.

Through examinations, parents, villagers, government and communities should be able to determine the strengths and weaknesses of both learners and the system itself. This will go a long way in helping learners to prepare themselves for their historical responsibilities.

Learners and young people in schools and other

institutions of learning have only one duty today, the duty of studying; studying should be seen as a social duty. By discharging that duty, learners shall be paying all debts they may have to society and the heroes/heroines who sacrificed to make possible this present society. All this sacrifice was made to dignify schools and higher institutions of learning in South Africa for poor people, both black and white.

Learners should study more and strive to be better every day as we all walk towards a better future. The future needs technology, culture and knowledge. Self-improvement on a day-to-day basis should become a necessity for all of us. Education, Science and Technology form an inseparable triad necessary for a country's development.

Our Education system must not only teach learners academic work but must also teach human values: generosity, modesty, simplicity, solidarity, and respect for humanity.

To those who have passed the examinations, we say they must go on to utilise the opportunities opened up by our country to contribute in building a better life for our people.

To those who could not make it in 2015, we say they must not despair. To make a mistake is not a sin or disgrace. The second chance matric programme shall provide you with the necessary support required.

Let me take this opportunity to thank all the learners, parents, educators, and officials for the hard work that they have put in 2015 and I hope that they will double their efforts in 2016 to achieve even far better results. The Eastern Cape should not be moving with fowls but should be flying with eagles. This can only be achieved if as a collective we focus on the same targets, ie the LEARNER.

It is not a disgrace to be poor, illiterate, to fail and be unemployed. What becomes a disgrace is when a modern sophisticated country like South Africa is unable to reduce unemployment, eliminate poverty and illiteracy faster than it is expected.

## **CONCLUSION**

### **BANTU BAKOWETHU!!!**

This report is humbly presented to you as an instrument of improving performance, career-pathing and determining progress. It takes a village to raise a child.

Our greatest heroes are you, the ordinary people, who continue to make tremendous sacrifices and immense contributions in ensuring that your children's education takes priority. We promise not to fail you.

Education remains a major contributor in dealing with poverty and economic development.

Indeed, the release of results (this year on 06 January 2015) is an annual function that marks an important date in the calendar of Education in our country. Word of gratitude goes to my colleagues in the Executive Council for their unwavering support, as well as members of the Legislature and the Portfolio Committee on Education for their robust oversight on the work we are doing.

Last but not least, is a word of heartfelt gratitude to my family for providing love, care and support in a challenging context like ours.

I thank you

A handwritten signature in black ink, appearing to read 'M. Makupula', written over a faint circular watermark or background.

**MEC: EDUCATION**

## Preface by the Head: Education

It is with great sincerity that I would like to commend the Matric Class of 2015 for such a concerted effort in the National Senior Certificate Examinations in 2015. The Class of 2015, compared to previous cohorts, has had a significantly different context in which to perform. These contexts need to be interpreted and interrogated with great care in order to provide clear learner performance trends.

We need to acknowledge that the Matric Class of 2015 is the second cohort to write the Curriculum and Assessment Policy Statement (CAPS) aligned National Senior Certificate Examinations. By definition and implication, implementing the CAPS is an ongoing and complex change process that is bringing about a basket of alterations to both form and content across all subjects and subject fields. These changes in content have, *inter alia*, brought about higher levels of cognitive demand which is continuing to be revealed in examination question papers. For some subjects, even the structure of question papers have been changed and areas of content to be covered realigned. With these changes, teaching and learning has been significantly impacted upon as teachers and learners grapple with the new requirements. During 2015, the impact of the challenges mentioned above saw an unusually high number of learners being progressed according to national policy.

To mitigate the impact of the higher cognitive demands, the different structure of questions papers and the new content, the Department had put in place a significant number of programmes to ensure optimal learner performance. These have included the continuing orientation of teachers to CAPS (Grades 10 – 12), the provisioning of relevant CAPS learner and teacher support materials, as well as the launch of a comprehensive Learner Attainment Improvement Strategy aligned to the National Strategy for Learner Attainment.

In addition, the Department has acknowledged that learner performance is intrinsically linked to improving reading, writing and numeracy challenges of our schools. Hence, a Literacy and Numeracy Strategy has been introduced from Grade R – 12.

Moreover, focus has been placed on gateway subjects, in particular of Mathematics, Physical Sciences and Languages. In this respect, intervention programmes for learners have been conducted in collaboration with external stakeholders.

However, despite these admirable interventions in the system the matric results have dropped from 65, 4% in 2014 to 56.8% in 2015.

The top performing District in the Province is Cradock with an average of 71.6%

7 Districts performed within the average at 60%- 69%.

The number of Districts performing below 60% has regrettably once again increased to 15.

The number of Bachelor Pass Rates has increased from 13 435 learners in 2014 to 15 291 learners in 2015.

In 2016, the focus of the Department at all levels will be to manage schools' performance improvement and improving the capacity of institutional support systems to turn schools around, especially those performing below the required average. The starting point will be to ensure optimal school leadership, with greater support to school principals as curriculum leaders and change agents.

Teacher proficiency in subject content delivery and classroom methodologies and pedagogy will receive unprecedented attention, to include new institutional and service delivery arrangements that prioritise strategic partnerships with private sector organisations, Higher Education Institutions, Teacher Unions, and civil society.

Last but not least, the Department will make a concerted effort to turn Circuit Offices into bastions of professional and administrative support for schools.

Good luck to all in 2016.

Mrs. N Netshilaphala

# INTRODUCTION

The National Senior Certificate based on the Curriculum and Assessment Policy Statement (CAPS) was examined for the second time in 2015 at Grade 12 level in the Republic of South Africa. During 2015 the Eastern Cape Education Department has worked tirelessly to ensure that teachers and learners were acquainted to the new curriculum and achieve the targeted outcome in the Province.

The 2015 cohort of learners started their schooling in 2004 and was 281 036 in total. Out of this number of 281 036 only 154 717 were registered in Grade 10 in 2013 which translates to 55.1 % cohort survival rate. The cohort loss is 126 319 which translates to 44, 9% in 2013. In 2015 in Grade 12 only 91 810 learners registered for NSC which translates to 32.7% of 2004 cohort of learners which includes 11 612 repeat candidates from 2014. Furthermore only 87 090 out of 91 810 wrote the examinations which further reduce the survival rate to 30.99 %.

Amongst strategies that have been introduced by the Department of Basic Education is the Education Sector Plan – Action Plan 2019 towards schooling 2030: which has as its objective to improve performance across the system. This plan has focused on the improvement in matric results.

Various strategies had been devised, to ensure that there was a complete turnaround in learner performance across the schooling system. The first step taken by the Eastern Cape Department of Education in 2015 was to declare the year of ‘Action, Results and Accountability’. This meant that key deliverables had to be identified for the year. Some of the deliverables identified were:

- Ensuring that Curriculum and Assessment Policy Statements (CAPS) are fully implemented, complied with, monitored and supported from Grade R-12.
- Increasing the National Senior Certificate (NSC) overall pass rate in the Eastern Cape Province from 65.4% in 2014 to 70% in 2015.
- Ensuring that every departmental official does their work for which they have been appointed. Furthermore, emphasis should be on strengthening monitoring and support mechanisms;
- Ensuring that schools have their own academic and subject improvement plans as required by the law (which are now revised as LAIS plans), in line with district plans, and which should focus on boosting the performance of learners;
- Ensuring that learners of under-performing schools attend identified LAIS Projects planned by districts and/ or schools;

Ensuring the use of supplementary learning material provided by the Provincial Department of Education (DoE) and the Department of Basic Education (DBE) for use during holiday tuition programmes (autumn, winter and spring classes).

However, attempts by the Eastern Cape Department of Education to come up with various learner outcomes improvement strategies have not yielded the desired outcomes; the belief is that there is always room for improvement. In its struggle to promote/implement changes that lead to sustainable performance standards that are guaranteed of success, our Province has not been deterred from its commitment to ensure that it finally achieves its goal.

## 1. SCHOOL-BASED ASSESSMENT

PROCESSES IMPLEMENTED TO ENSURE COMPLIANCE WITH SCHOOL BASED ASSESSMENT (SBA) REQUIREMENTS IN 2015

In addition to the formal examination papers written at the end of the year, candidates are also expected to complete a variety of assessment tasks at school level. As in other grades, these requirements are spelt out in the policy document, National Protocol on Assessment and are meant to allow the candidates to work

consistently throughout their Grade 12 year and to be rewarded by accumulating marks towards their final result. These assessment tasks cover a wide variety of activities.

All of these components are put together to produce the candidate's School Based Assessment mark. This is a vital component of the candidate's final result which constitutes 25% of the final mark and must receive continuous attention throughout the year. Conversely, a candidate who does not work consistently throughout the year but expects to redeem his or her prospects in the final examination shall find it challenging to attain a good result. SBA tasks need to be taken seriously.

The absence of a School-Based Assessment and/or a Practical Assessment Task mark in any subject in Grades 10-11, without a valid reason, will result in the candidate, registered for that particular subject, receiving an incomplete result. The candidate will be given three weeks before the commencement of the final end-of-year examination of the relevant grade to submit outstanding work or present himself or herself for School-Based Assessment and/or a Practical Assessment Task. Should the candidate fail to fulfill the outstanding School-Based Assessment and/or Practical Assessment Task requirements, such a candidate will not be result and he or she must repeat the subject and redo the School-Based Assessment and/or Practical Assessment Task component for that subject.

In the event of a learner not complying with the requirements of School-Based Assessment and/or Practical Assessment Task in any subject in Grades R-12, but where a valid reason is provided:

- He or she may be granted another opportunity to be assessed in the assigned tasks, based on a decision by the Head of the assessment body.
- The learner must, within three weeks before the commencement of the final end-of-year examination of the relevant grade submit outstanding work or present himself or herself for School-Based Assessment and/or Practical Assessment Task. Should the learner fail to fulfil the outstanding School-Based Assessment and/or Practical Assessment Task Assessment requirements, he or she, registered for that particular subject will receive an incomplete result.

The following processes were put in place to ensure compliance with School Based Assessment (SBA) requirements:

- Monitoring of SBA moderation at all levels by Assessment and Examinations, Curriculum FET programme, Department of Basic Education and Umalusi. The SBA marks are standardized against the written marks by Umalusi.

## **1.1. VERIFICATION OF IMPLEMENTATION OF SCHOOL BASED ASSESSMENT (SBA) AND ITS MODERATION**

Verification and monitoring of implementation of School Based Assessment (SBA) is a mandate by the Department of Basic Education to all Provinces. The SBA mark has to undergo all processes of moderation and verification to ensure that it is valid, reliable and authentic. To ensure that all SBA moderation levels are observed, the Provincial SBA co-ordinator developed a SBA verification Programme which focused on on-site visits to verify implementation and moderation of SBA at the District, cluster and school levels. A sample of Districts and schools were monitored and verified.

DBE moderators visited the Province to moderate NSC Grade 12 SBA. This was done in June and in September 2015. In all occasions this was a great success. On 09 – 14 August 2015 the Centralized SBA Provincial moderation was successfully conducted. A sample of 18 subjects was moderated during this moderation session. This was done in two centres. Twenty Percent of the number of schools doing each subject in the Province was moderated.

## 2. WHAT ARE THE REQUIREMENTS FOR A NATIONAL SENIOR CERTIFICATE?

In order to obtain a National Senior Certificate the learner must:

- Offer seven approved subjects and provide full evidence of School Based Assessment for each subject.
- Complete the programme requirements for Grades 10, 11 and 12 separately and obtain distinct outcomes and associated standards for all the grades.
- Comply with internal assessment requirements for Grades 10, 11 and 12; and the external assessment requirements of Grade 12.
- Achieve at least 40% in three subjects, one of which must be an official language at Home Language level.
- Must achieve at least 30% in three other subjects.
- Provide full evidence of the SBA component in the subject failed.
- The table below shows the minimum requirement to obtain National Senior Certificate.

Promotion requirements	Percentage required
Subject 1: Home Language	40%
Subject 2	40%
Subject 3	40%
Subject 4	30%
Subject 5	30%
Subject 6	30%
Subject 7	0 - 29% (Proof of SBA in the failed subject)

### RATING SCALE

A rating scale is used to summarise achievement. This is the same scale in use in Grades 10 and 11 and which will eventually be used throughout the schooling system when the new Curriculum and Assessment Policy Statements (CAPS) are fully implemented.

ACHIEVEMENT LEVEL	ACHIEVEMENT DESCRIPTOR	MARKS %
7	Outstanding Achievement	80-100
6	Meritorious Achievement	70-79
5	Substantial Achievement	60-69
4	Adequate Achievement	50-59
3	Moderate Achievement	40-49
2	Elementary Achievement	30-39
1	Not Achieved	0-29

## 3. MINIMUM ADMISSION REQUIREMENTS TO HIGHER EDUCATION

It must be emphasised that the minimum requirements for admission to Higher Educations are set by Higher Education Institutions (HEIs). HEIs are at liberty to raise these requirements at any time, depending on the number of applicants they receive. They are also at liberty to set their own entrance and placement tests and to set higher requirements for entrance into particular courses or fields of study. Some HEIs do not recognise particular subjects for selection processes into certain study areas. For example, Mathematical Literacy is not

recognised in some HEIs for entrance into courses of study involving Engineering and Sciences. Candidates should consult the HEI of their choice to ascertain entrance requirements.

- Higher Certificate

The minimum admission requirement is a National Senior Certificate (NSC) as certified by Umalusi. Institutional and Programme needs may require appropriate combinations of recognized NSC Subjects and levels of achievements.

- Diploma

The minimum admission requirement is a National Senior Certificate (NSC) as certified by Umalusi with an achievement rating of:

■ **4 x 40%- 49% or better (4 x Level 3 including Home Language)**

Institutional and Programme needs may require appropriate combinations of recognized 20 credit NSC Subjects and levels of achievements.

- Bachelor's Degree

The minimum admission requirement is a National Senior Certificate (NSC) as certified by Umalusi with an achievement rating of:

■ **4X50%-59% or better (4 x Level 4s Including Home Language)**

Institutional and Programme needs may require appropriate combinations of recognized 20 credit NSC Subjects (which will be known as the designated subject list) and levels of achievements.

Accounting	Engineering Graphics and Design	Mathematics
Agricultural Science	Geography	Mathematical Literacy
Business Studies	History	Music
Consumer Studies	Information Technology	Physical Science
Dramatic Arts	Languages	Religion Studies
Economics	Life Sciences	Visual Arts

## 4. STATISTICS FOR THE NATIONAL SENIOR CERTIFICATE 2015

- NUMBER OF FULL-TIME CANDIDATES AND EXAMINATION CENTRES

The figures in Table 1.1 and Table 1.2 below provide a comparison of the number of candidates who have entered for the National Senior Certificate (NSC) examinations in the Province this year and last year. It is worth noting that the Eastern Cape has the fourth largest number of candidates for the NSC after Kwa Zulu Natal, Limpopo and Gauteng provinces.

**TABLE 1.1**

- NUMBER OF FULL-TIME CANDIDATES ENROLLED FOR NSC IN 2011-2015

Year	Number Full-time	Increase / Decrease
2011	68 069	
2012	69 427	1358
2013	74 980	5 553
2014	69 294	-5 686
2015	91 810	22 516

The number of candidates has increased in 2015 when compared to 2014.

**TABLE 1.2**

**NUMBER OF EXAMINATION CENTRES 2011- 2015**

Year	Number of Centres	Increase / Decrease
2011	918	
2012	926	8
2013	926	0
2014	923	-3
2015	924	1

The number of centres has decreased in 2015 when compared to 2014 due to rationalization.

## **5. CHALLENGES**

Despite many areas of excellence and a constant improvement in systems and processes through examinations and assessment in the Eastern Cape, there are a number of areas of serious challenge which bear mentioning.

### **5.1. Learners**

The province was reducing the number of irregularities from 2011 to 2013. However in 2014 there was an increase in irregularities due to mass copying in the province. Chief Invigilators and Invigilators who were involved in irregularities were charged. This was one of the deterrents for reducing the irregularities in 2015. Moreover, the province intensified monitoring of the writing of the examinations by making more monitors and vehicles available. This has reduced the irregularities in 2015 when compared to the irregularities in 2014.

Marking Centre Irregularities Investigator training workshop: The Province is still using Irregularities Investigators instead of Deputy Centre Managers at marking centres. They were trained on the procedures for managing and handling irregularities discovered at marking centres. The workshop took the form of an advisory/ review workshop where one was given a chance to highlight his / her challenges and advice was given where necessary.

Chief Marker's training workshop: The Chief Markers were also thoroughly trained by the Provincial Irregularities Office on how to identify, manage and handle irregularities. These training workshops were focusing on critical areas that could lead to irregularities, such as registration related issues; script control measures; monitoring procedures and handling of concessions.

There were administrative errors or omissions such as late start and candidates that wrote incorrect subject levels, as well as behavioural offences and acts of dishonesty, such as crib notes, etc. However due processes are being followed in such cases, for instance in candidates who wrote incorrect subject levels the Province has applied for Umalusi lost script concession for these candidates to be resulted and still waiting for the response from Umalusi via Department of Basic Education as per the policy. Candidates that were involved in cribbing their results are blocked in the system (withheld) pending the completion of investigation which will involve charging and conduct of disciplinary hearings. The Province has tried its level best to ensure proper registration of all candidates before the exams.

The Provincial Irregularities Office once more wishes to extend a word appreciation to all officials at provincial, district offices and in marking centres for their tireless dedication as far as the management and the handling of irregularities.

## **5.2. POLICIES NOT ADHERED TO**

Policies are only as good as the paper they are written on if they are not adhered to. If, for example, unauthorised persons are allowed free access into restricted areas, then the policy on security of examination materials becomes unenforceable and ignored, which could lead to a major breakdown. Similarly, if staff members charged with implementing policy either chose to ignore policy or do not know the policy, their actions become subject to judicial review, which may be both unnecessary and wasteful. Implementation of policies that impact on the credibility of the examination processes such as, Subject Changes, Invigilation and Script Control, must remain a priority for all staff members. Staff training and re-training on policy requirements is a necessity which has been recognized.

## **5.3. NON-PROVISION OF LEARNER AND EDUCATOR EVIDENCE TO BACK UP SBA MARKS**

All educators and candidates are required to keep complete records of all assessments that take place. This does not mean that bulky folders are required to be kept, but during moderation it is a requirement that tangible evidence of learner performance can be produced to substantiate the grades awarded to candidates. It is often the case that when evidence of performance is required schools, educators and candidates are unable to produce it. This leads to an undermining of the credibility of the School-based Assessment mark and to suspicions that educators have not completed learning programmes and that the marks provided are mere guess work. This can have severe consequences for all candidates in the Province as UMALUSI is quite entitled to refuse to certify results as credible and allow them to be released if there is sufficient concern that they may be bogus.

## **6. CONCLUSION**

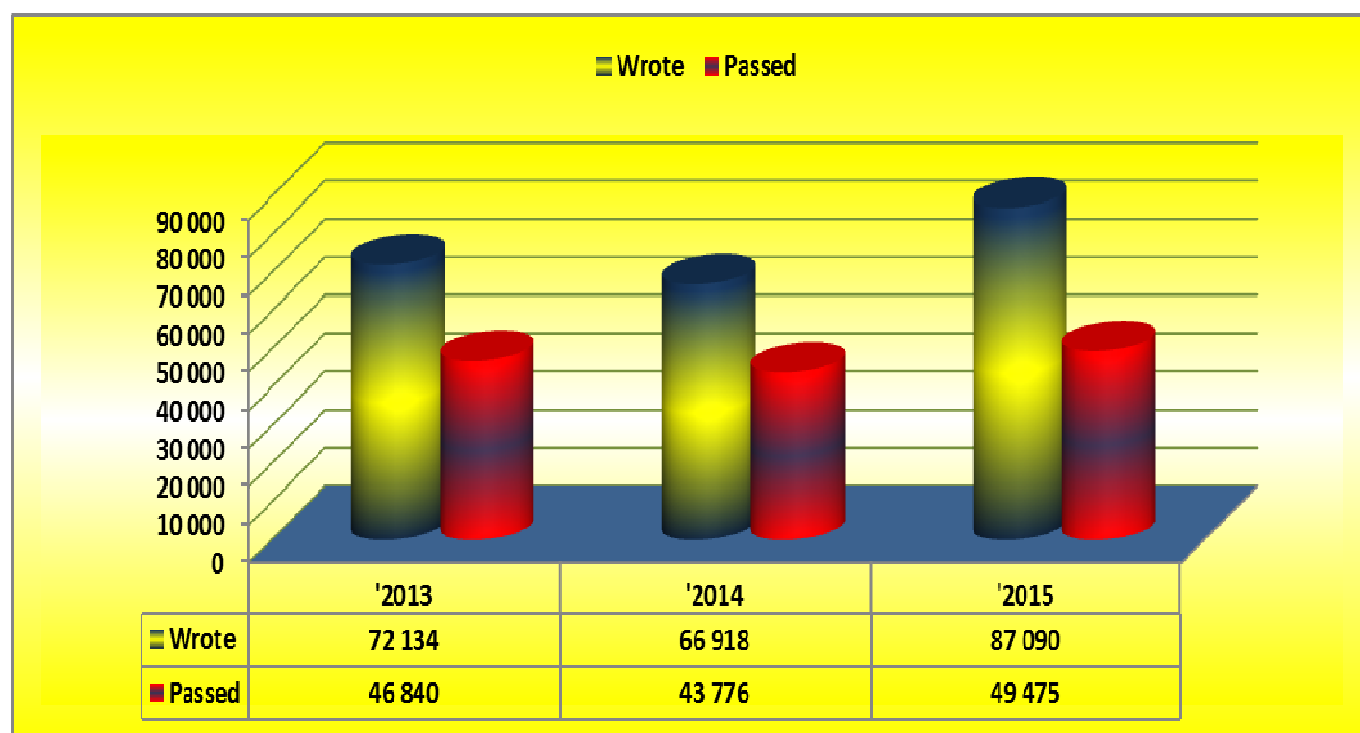

The mandate of the Examinations and Assessment Directorate is to deliver a credible, effective, efficient and error free examination and assessment service to its users. This, despite the many challenges the Directorate faces, it has managed to continue to provide in 2015 and will no doubt, continue to provide in the years to come. Our commitment to service delivery and to service excellence remains unswerving.

***Working together we can achieve more.***
