MARKING GUIDELINE**

MARKS: 150

This marking guideline consists of 21 pages.

1. SOURCE-BASED QUESTIONS

1.1 The following cognitive levels were used to develop source-based questions:

COGNITIVE LEVELS	HISTORICAL SKILLS	WEIGHTING OF QUESTIONS
LEVEL 1	<ul style="list-style-type: none"> Extract evidence from sources Selection and organisation of relevant information from sources. Define historical concepts/terms 	30% (15)
LEVEL 2	<ul style="list-style-type: none"> Interpret and evaluate evidence from sources Engage with sources to determine its usefulness, reliability, bias and limitations Compare and contrast interpretations and perspectives presented in sources and draw independent conclusions 	40% (20)
LEVEL 3	<ul style="list-style-type: none"> Interpret and evaluate evidence from sources Engage with sources to determine its usefulness, reliability, bias and limitations Compare and contrast interpretations and perspectives presented in sources and draw independent conclusions 	30% (15)

1.2 The evidence below indicates how source-based questions are assessed:

- In the marking of source-based questions, credit needs to be given to any other valid and relevant viewpoints, arguments, evidence or examples.
- In the allocation of marks, emphasis should be placed on how the requirements of the question have been addressed.
- In the marking guideline, the requirements of the question (skills that need to be addressed), as well as the level of the question, are indicated in italics.
- When assessing open-ended source-based questions, learners should be credited for any other relevant answers.
- Learners are expected to take a stance when answering 'to what extent' questions for any marks to be awarded.

1.3 Assessment procedures for source-based questions

- Use a tick (✓) for each correct answer.
- Pay attention to the mark scheme e.g. (2 x 2) which translates to two reasons and is given two marks each (✓✓✓✓); (1 x 2) which translates to one reason and is given two marks (✓✓).
- If a question carries 4 marks then indicate by placing 4 ticks (✓✓✓✓).

Paragraph question

Paragraphs are to be assessed globally (holistically). Both the content and structure of the paragraph must be taken into account when awarding a mark. The following steps must be used when assessing a response to a paragraph question:

- Read the paragraph and place a bullet (.) at each point within the text where the candidate has used relevant evidence to address the question.
- Re-read the paragraph to evaluate the extent to which the candidate has been able to use relevant evidence to write a paragraph.
- At the end of the paragraph indicate the ticks (✓) that the candidate has been awarded for the paragraph; as well as the level (1,2, or 3) as indicated in the holistic rubric and a brief comment e.g.

_____ * _____ * _____
 _____ * _____ * _____ ✓✓✓✓ **Level 2**

Used mostly relevant evidence to write a basic paragraph

- Count all the ticks for the source-based question and then write the mark on the bottom margin to the right, e.g.

$$\frac{32}{50}$$

- Ensure that the total mark is transferred accurately to the front/back cover of the answer script.

2. ESSAY QUESTIONS**2.1 The essay questions require candidates to:**

- Be able to structure their argument in a logical and coherent manner. They need to select, organise and connect the relevant evidence so that they are able to present a reasonable sequence of facts or an effective argument to answer the question posed. It is essential that an essay has an introduction, a coherent and balanced body of evidence and a conclusion.

2.2 Marking of essay questions

- Markers must be aware that the content of the answer will be guided by the textbooks in use at the particular centre.
- Candidates may have any other relevant introduction and/or conclusion than those included in a specific essay marking guideline for a specific essay.
- When assessing open-ended source-based questions, learners should be credited for any other relevant answers.

2.3 Global assessment of the essay

The essay will be assessed holistically (globally). This approach requires the teacher to assess the essay as a whole, rather than assessing the main points of the essay separately. This approach encourages the learner to write an original argument by using relevant evidence to support the line of argument. The learner will **not** be required to simply regurgitate content (facts) to achieve a level 7 (high mark). This approach discourages learners from preparing essays and reproducing them without taking the specific requirements of the question into account. Holistic marking of the essay credits learners' opinions that are supported by evidence. Holistic assessment, unlike content-based marking, does not penalise language inadequacies as the emphasis is on the following:

- The learner's interpretation of the question
- The appropriate selection of factual evidence (relevant content selection)
- The construction of argument (planned, structured and has an independent line of argument)

2.4 Assessment procedures of the essay

2.4.1 Keep the synopsis in mind when assessing the essay.

2.4.2 During the first reading of the essay ticks need to be awarded for a relevant introduction (which is indicated by a bullet in the marking guideline), the main aspects/body of the essay that sustains/defends the line of argument (which is indicated by bullets in the marking guideline) and a relevant conclusion (which is indicated by a bullet in the marking guideline).

For example, in an essay where there are five (5) main points, there could be about seven (7) ticks.

2.4.3 Keep the **PEEL** structure in mind when assessing an essay.

P	Point: The candidate introduces the essay by taking a line of argument/making a major point. Each paragraph should include a point that sustains the major point (line of argument) that was made in the introduction.
E	Explanation: The candidate should explain in more detail what the main point is all about and how it relates to the question posed (line of argument)
E	Example: The candidates should answer the question by selecting content that is relevant to the line of argument. Relevant examples should be given to sustain the line of argument.
L	Link: Candidates should ensure that the line of argument is sustained throughout the essay and is written coherently.

2.4.4 The following additional symbols can also be used:

- Introduction, main aspects and conclusion not properly contextualised
- Wrong statement ^
- Irrelevant statement |
- Repetition R
- Analysis A√
- Interpretation I√
- Line of argument LOA

2.5 The matrix

2.5.1 Use of the matrix in the marking of essays

In the marking of essays, the criteria as provided in the matrix should be used. When assessing the essay note both the content and presentation. At the point of intersection of the content and presentation based on the seven competency levels, a mark should be awarded.

- (a) The first reading of the essay will be to determine to what extent the main aspects have been covered and to allocate the **content level** (on the matrix).

C	LEVEL 4	

- (b) The second reading of the essay will relate to the level (on the matrix) of the **presentation**.

I	LEVEL 4	
A	LEVEL 3	

- (c) Allocate an overall mark with the use of the matrix.

SECTION B: ESSAY QUESTIONS**QUESTION 3: CIVIL RESISTANCE, 1970s TO 1980s: SOUTH AFRICA: THE CRISIS OF APARTHEID IN THE 1980s**

[Plan and construct an original argument based on relevant evidence using analytical and interpretative skills.]

SYNOPSIS

Candidates need to agree or disagree on how the Black Consciousness Movement and Steven Bantu Biko was instrumental in challenging the apartheid government in the 1970s.

MAIN ASPECTS

Candidates could include the following aspects in their essays:

Introduction: Candidates need to take a stance and indicate how the Black Consciousness Movement and Steven Bantu Biko was instrumental in challenging the apartheid government in the 1970s.

ELABORATION

- In the 1970s Black Consciousness Movement (BCM) revived the freedom struggle
- Apartheid became increasingly oppressive in the 1970s and 1980s
- Resistance seemed a hopeless cause. BC ideas changed that mindset
- Black Consciousness (BC) began as a university student movement led by Stephen Biko which aimed to conscientise black people and instill in them a sense of self-worth and confidence to challenge the apartheid regime
- **The role of Biko:** Biko became involved in student politics while studying medicine at the university as a member of NUSAS – a non-racial student organization. Biko was convinced that they could not understand the needs of black South Africans and felt there was a need for own organization to speak for themselves. Biko recruited fellow students from other ethnic universities and in December 1968 drafted a constitution for the South African Students Organisation (SASO)
- **SASO:** Spread BC ideas across the campuses of the ethnically separated universities. Was important because it promoted black unity and solidarity, made students more politically aware, encouraged students to liberate themselves from Apartheid

- **BCM:** Spread out from the ethnic university campuses to the rest of South Africa. Young black people were sent into various communities to create and run clinics and to set literacy campaigns to encourage solidarity and self-reliance. In 1972, the Black People's Convention (BPC) was formed to coordinate the activities of all the various BCM groups which emerged. BC reawakened labour movements in South Africa. In 1972 SASO established a national trade union council for blacks. The **Black Allied Workers Union (BAWU)** was formed by Drake Koka, and it rejected white involvement in the trade union movement. **Urban Workers' Strike (1973)** reasons for the strike and demands of the workers. Highlights the government's reaction and impact of strikes. **Viva Frelimo rallies;** these rallies as national campaigns to be staged by SASO rallies accelerated tension between SASO and the South African government.
- **Government perceptions of BC:** At first the SA government was not concerned about the BCM as it seemed similar to its own policy of separate development. Apartheid philosophy believed in racial segregation so the formation of SASO (black only union) seemed in accordance with apartheid theories of "own affairs". BC became stronger; it posed a challenge to the state for it had become a mass movement that sought to undermine apartheid. The Apartheid government reacted to the threat posed by the BCM by taking actions such as; banning BC leaders in 1971 from speaking in public (8 SASO leaders were banned); 8 BPC leaders were detained without trial under the Terrorism Act; SASO was banned on university campuses by 1975 and Biko was brutally murdered by the security police in 1977.
- **1976 Soweto Uprising:** Learners at schools in Soweto were unhappy because; most government funding went to white schools, severe overcrowding in classes, curriculum was limited and education prepared learners for manual and unskilled labour. Introduction of Afrikaans as a medium of instruction in 1975 in black schools triggered mass protest. SASM decided to hold a mass demonstration against Afrikaans as a medium of instruction. On 16th June 1976 thousands of Soweto learners embarked on a peaceful protest. Later the march turned violent and hundreds were injured (Hastings Ndlovu and Hector Pietersen). Angered by the police actions, learners went on a rampage through the streets of Soweto and burnt symbols of apartheid like buildings and white businesses.
- **Debate whether SASO (and SASM) were influenced by BCM.** There were many other factors that played a role such as; poor living conditions in Soweto, influence of the ANC (political influence) and the establishment of the trade union movement. However, there is a most wide accepted idea that BC influenced the learners from Soweto. A number of SASO members became teachers once they had graduated. They introduced BC ideas to learners. SASM provided leadership training to high school learners, and it (SASM) was encouraged by SASO to concern itself with injustices within society and to spread BC ideas.

- **The legacy of BC on SA politics:** BCM revived the struggle against apartheid. Because of the change in attitude brought by the BCM and SASO, school children defied the apartheid state and spearheaded country wide protest. BCM political activists formed a new political organization, the Azanian Peoples' Organisation (AZAPO) in 1978. Azapo embraced BC philosophy and rejected white participation in the struggle.
- Any other relevant information
- **Conclusion:** Candidates should tie up their argument with a relevant conclusion [50]
