1. INTRODUCTION

Learner performance improvement continues to be the main focus for the Eastern Cape Department of Education. This is based on the premise that while it is important to determine trends in Learner Performance in specific subjects such as Mathematics and Physical Science, determining trends in progression of learners throughout the schooling system is equally important.

Grade 1-11 analysis seeks to provide a superficial Provincial picture of the overall learner performance and trends on progression/ promotion in all of these Grades. The analysis also gives a picture of how learners have been progressed/promoted according to Gender. The 2011 analysis of Grades 1 -11 results indicates that there has been an improvement in percentage pass achieved in all these grades. However, the low pass rate achieved in Grade 10 and 11 every year is a cause for concern for the Province.

This booklet provides an analysis for all 23 Districts in this Province, and is based on data submitted as follows:

NOTE: The data used to generate this analysis is based on the information provided by schools as reflected in their internal results schedules. Districts fall well short of submitting data that can be reliably analysed, as the acceptable submission for analysis is no less than 99%. The District Director and Education Management Officers (EDO) in each District are accountable for the submission of school progression/promotion schedules.

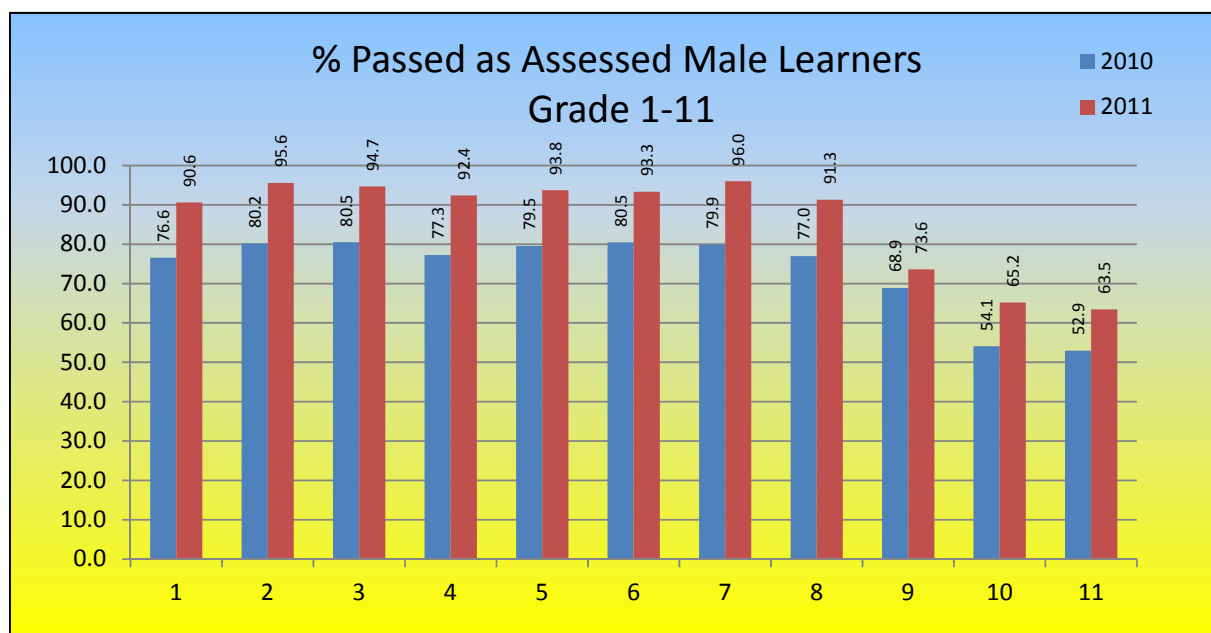

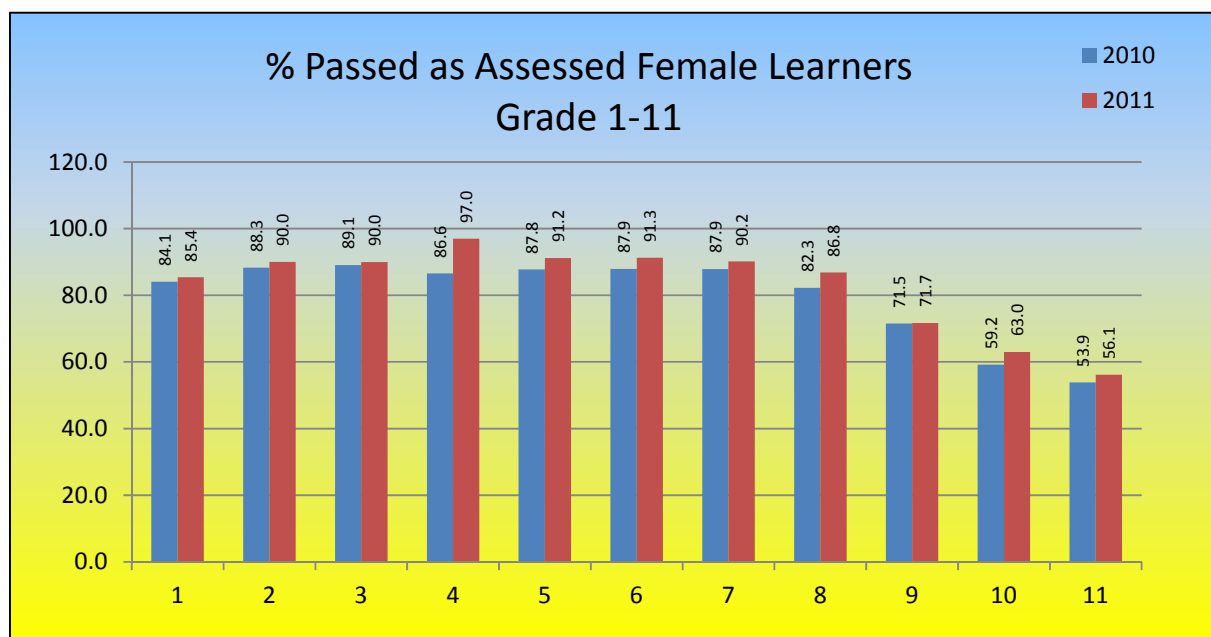

The total number of registered learners for Grades 1 to 12 is 1 726 915 but the analysis of results is based on 1 005 519 learners assessed as per promotion schedules submitted
