

CONSUMER STUDIES (FOOD PRODUCTION)

GUIDELINES FOR PRACTICAL ASSESSMENT TASKS

2013

INFORMATION FOR TEACHERS

These guidelines consist of 14 pages.

THE PRACTICAL ASSESSMENT TASK FOR CONSUMER STUDIES FOOD PRODUCTION

1. OVERVIEW

- During the Practical Assessment Task, the learner must demonstrate his/her knowledge and practical ability/skills to produce a variety of quality food products, focusing on suitability for selling.
- The Practical Assessment Task for Grade 12 consists of two practical examinations of 2½ hours each. Learners perform these practical examinations individually.
 - Term 2: Practical examination 1
 Learners will make and present products selected for the micro-enterprise used for the project in term 1.
 - Term 3: Practical examination 2
 Learners will produce a variety of food products suitable for selling, using a variety of skills and techniques.

2. MARK ALLOCATION

• Each exam consists of 100 marks. The mark for the final Practical Assessment Task is obtained by combining the marks for the 2 exams as indicated below.

Final mark for PAT	100
Total	200 ÷ 2
Practical examination: term 3	100
Practical examination: term 2	100

- The marks for the PAT are part of the end-of-the-year assessment.
- The province will provide two separate computerised mark sheets, one for SBA and one for the PAT.

3. REQUIREMENTS FOR THE PRACTICAL EXAMINATIONS

Consumer Studies is a choice subject with different practical options. This school has chosen to offer Consumer Studies as a subject, and selected the Food Production practical option. Therefore the equipment and funds necessary to conduct the PAT is the responsibility of the school, and are specified in circular S8 of 2006. Also specified is the ability of the school to ensure that practical lessons during the year take place.

- A suitable training kitchen with the necessary equipment: a minimum of 6 stoves (gas/electric), a refrigerator, electricity/gas, sinks with running water, and equipment and utensils for preparation and cooking.
- A minimum of R25 to a maximum of R45 per learner for EACH of the two practical examinations is required, over and above the funding required for the SBA practical lessons, to purchase ingredients to make the required products.
- Divide learners into groups of a maximum of 12. Twenty-four learners (two groups of 12 learners) can do the exam on the same day (e.g. from 08:00–11:00 and from 12:00–15:00).
- The teacher will need time between the two sessions to prepare the venue for the second group.
- Schools with large numbers of learners will need more than one day to complete this examination.

4. REQUIRED TIME FRAME

A time frame of 2½ hours, under examination conditions, (+ 30 minutes for teacher evaluation), is required for each exam – total of 3 hours.

- **30 minutes** for learners to draw their test and settle down at the workstation allocated to them and start collecting ingredients.
- 2 hours for preparation of the products.
- 30 minutes for the teacher to do evaluation, check the workstations of the learners and complete the mark sheets.

5. SETTING THE EXAMINATIONS

Examination 1 (term 2)

- This practical examination must be slotted into the examination timetable in the second term.
- Learners will make the products they have chosen for their micro-enterprise (project in term 1). The saleability of the products forms an important aspect of this examination.

Examination 2 (term 3)

- During the practical examination in the third term, learners must demonstrate a variety of culinary skills. They will be assessed on the production process and the saleability of the products.
- The teacher must set a minimum of 4 different tests.

Each test must:

- Have at least two products
- Have a minimum skill-code weighting of 20 points, including a variety of culinary skills and techniques
- o Include ONE of the following:
 - Yeast product (baked or deep fried)
 - Choux pastry
 - A gelatine dish (not jelly)
 - Swiss roll
 - Soft meringue such as lemon meringue pie or queen of bread pudding
 - Flour-based product such as biscuits, short crust pastry, muffins, scones/scone dough variation/pancakes/crumpets/waffles, other suitable flour-based products
 - Sugar cookery
- The second product can include any appropriate skill or technique as long as the skill-code weighting adds up to a minimum of 20 points
- All recipes must:
 - Be accompanied by a clear picture
 - Have clear instructions in short sentences and easy language
 - o Be small, 2-4 portions
 - Be suitable for the available budget and other resources of the school
 - Be suitable for selling
- Prepare an order of work for each test.
- Prepare a memorandum with regard to the desirable qualities of each product for each test.
- The same four tests will be used for all the examination sessions, even if they take place on different days.

NOTE: The making of packaging and labelling is not part of this examination.

- The teacher must submit the following to the subject advisor for approval in the first week of term 2:
 - The tests and relevant recipes, indicating the weighting of the techniques according to the skill code
 - The order of work for each test
 - The memorandum with the desirable qualities for each product for each test
 - The planning for purchases
 - A draft budget and the estimate cost per learner
 - o The checklist, signed by the principal
 - The proposed date for external on site moderation for the last group of learners. This date should be negotiated with the subject advisor.
 - The signed checklist (attached)

6. PREPARING FOR THE EXAMINATION

- Set the dates. Communicate these dates to the SMT of the school, and make sure these dates do not clash with other school activities. It should be slotted into the timetable of the school for tests/exams.
- Have the stoves serviced and repaired.
- Photocopy the tests (recipes and work order) for the learners.
- Prepare mark sheets with learners' names and their examination numbers.
- Purchase the ingredients.
- Clean and tidy up the training kitchen.
- Put out the necessary equipment and ingredients. Learners should not run around during the examination looking for equipment in the storeroom or cupboards, except for the cupboards under their workstation. A table for the ingredients as well as equipment is needed.

7. PERFORMING THE EXAMINATION

- Learners will receive all the recipes included in the four tests (not in test format)
 one week (7 days) before the date of the examination of the first group of learners.
 They will not know how the recipes will be combined in test format, and will not
 know which recipes they will draw.
- When entering the examination room, each learner will draw ONE of the four tests. Recipes will be attached to the tests.
- Learners will have 30 minutes to study the test and prepare an order of work. The teacher must keep this for moderation purposes.
- If a learner completes his/her order of work in a shorter time, he/she can collect ingredients and start cooking.
- Learners performing the same test must be placed at different workstations, e.g. a learner performing test 1 could share a workstation and stove with a learner performing test 3.
- The products should be ready for assessment at the end of the 2 hours. After 5 minutes, learners will lose 2 marks for every 5 minutes late.
- Only the teacher, the moderator and the candidates can be in the room during the practical examination.
- The teacher must invigilate and assess the learners while they are performing the practical examination, and may not do any other work.

8. EVALUATION

The teacher and moderator have 30 minutes to evaluate the final products, inspect the workstations of the learners and complete the mark sheets. The learners should not leave before the evaluation and inspection are completed, as they need to tidy up their workstations after evaluation, so that the teacher can inspect the workstations for the allocation of marks.

9. MODERATION OF THE PRACTICAL EXAMINATION

• During term 3, the last group of a maximum of 12 learners will be externally moderated by the relevant subject advisor while performing the practical exam at the school. On the day of moderation, the marks of the rest of the learners (who should have completed the examination already), must be available for the moderator. The marks of all the learners need to be finalised and signed by the subject advisor and the principal on the day of this examination. The computerised mark sheet must be completed on the day of the moderation, if available.

On the day of moderation, the teacher must have the following available for the moderator:

- The marks of all the learners who have completed the practical exam in term 3
- o The marks of all the learners for the practical exam in term 2
- The 'order of work' templates of all the learners for all the examinations where the moderator was not present.
- A separate set of assessment tools for the moderator to use, with the names and examination numbers of the learners already written on the mark sheet.
- The moderator will independently assess the learners while they perform the examination. Afterwards the moderator will compare his/her assessment with the assessment of the teacher.
- If the moderator finds that the marks of the teacher differ substantially from his/her marks, a block adjustment should be made. A block adjustment can also be made if the moderator finds that the practical exam of the school is not of the expected standard. The moderator will discuss this with the teacher. The final moderated marks should then be entered on the computerised mark sheet.
- The marks of the previous groups of learners will also be taken into consideration when a block adjustment is made.

SKILL-CODE FOR WEIGHTING OF TECHNIQUES USED IN FOOD PRODUCTION

- A weighting is allocated to a technique according to the degree of difficulty of the technique.
- The total weighting of the techniques in the recipe(s) chosen for each test for the practical examination in Grade should 12 add up to a minimum of 20 points.
- Points for the same technique cannot be awarded twice in the same test.

1	Cooking methods	Skill code points
1.1	Baking of a cake: Lining tin, pre-heat oven and set correct temp. Position of oven rack correct, bake for desired time, blind baking	3
1.2	Baking without lining a tin	2
	Baking in a pan of hot water (bain-marie) e.g. baked custard.	
	Baking a soufflé	
1.3	Roasting meat	2
1.4	Blanching	2
1.5	Boiling on stove-top (e.g. rice, pasta, vegetables)	2
1.6	Deep-frying (chips, doughnuts, vetkoek, drain on paper towel)	3 3 3
1.7	Grilling (hamburger patties, steak)	3
1.8	Cooking in microwave oven, e.g. custard sauce, white sauce, pasta (not for heating up milk, food, water)	3
1.9	Poaching	2
1.10	Pressure cooker used for e.g. meat and vegetable stew, bean soup	3
1.11	Sauté (onions, green peppers, etc.)	2
1.12	Sealing and browning of meat/mince/dry frying of bacon	2
1.13	Shallow-frying (pancakes, crumpets, hamburger patties, fish cakes)	3
1.14	Simmering/Stewing meat/poultry dish with vegetables, dried fruit	4
1.15	Steaming: double boiler or mixing bowl on pot, e.g. fish, egg custard sauce, melting chocolate (NOT RICE)	3
2	Gelatine	
2.1	Gelatine dish, e.g. moulded salad or dessert	3
2.2	Gelatine dish made with commercial jelly	2
2.3	Fold in other ingredients such as whipped cream or grated cucumber at correct stage	2
2.4	Unmoulding gelatine dish	2
3	Eggs	
3.1	Soft meringue (e.g. lemon meringue tart)	3
3.2	Hard meringue (meringues)	4
3.3	Custard base with eggs, e.g. quiche/milk tart	2
3.4	Beating and folding in egg white, e.g. Soufflé, Milk Tart, roulade	2
4	Yeast	
4.1	Preparing yeast batter or yeast dough	4
5	Mixing methods	
5.1	Batter, one-bowl method (pancakes, crumpets, fritters, cake, etc.)	3
5.2	Batter, creaming method	3
5.3	Batter, chiffon method (includes beating and folding in of egg whites)	4
5.4	Batter, muffin/emulsion method	3
5.5	Batter, melting method	3
5.6	Batter, whisking method	3
5.7	Choux pastry	5
5.8	Dough, rubbing-in method (short crust pastry, scones)	3
5.9	Pastry, rubbing-in, mixing, rolling out (making own flaky / short crust pastry)	5

6	Preparing ingredients	
6.1	Peeling, cutting, slicing, dicing, of vegetables, e.g. julienne carrots (use of chef's knife)	2
6.2	Deboning of chicken/chicken breast	2
7	Ready-made food	
7.1	Preparing a biscuit crust using e.g. Marie biscuits/Tennis biscuits and melted butter	2
7.2	Use of ready-made pastry/phyllo pastry	2
8	Sauces and salad dressings	
8.1	Cooked sauces, e.g. gravy, custard, jam-, orange sauce, sauce thickened with flour	2
8.2	Mayonnaise (home-made)	4
8.3	Uncooked, home-made salad dressing	2
8.4	Cooked salad dressing	4
8.5	White sauce/cheese sauce, roux method	3
9	Sugar cookery and home-made sweets	
9.1	Caramelisation of sugar, e.g. caramel sauce	4
9.2	Boiling of sugar syrup to soft-ball stage, firm-ball stage, etc.	4
9.3	Manipulation of sugar syrup, e.g. beating fudge, marshmallows. Cut in shapes when cold.	4
10	Techniques	
10.1	Butter icing – preparing and decorating cup cakes and cakes	3
10.2	Garnishing, advanced, e.g. tomato-/potato-/radish flowers/tuiles/chocolate curls/chocolate	3
	leaves, chocolate cups/shaping and decorating with fondant icing/marzipan and other	
	decorations, etc.	
10.3	Piping/Using a piping bag	2
10.4	Royal icing (icing sugar and water/lemon juice/egg white – glazing) – preparation and use	2
10.5	Preparing a chocolate ganache (chocolate and cream)	2
10.6	Pureé	2
10.7	Shaping of dough, e.g. scones, biscuits, doughnuts, bread rolls, koeksisters, croquettes	3
10.8	Swiss roll/roulade – rolling	3
10.9	Lamingtons – making of chocolate sauce and dipping, rolling in coconut	3
10.10	Using specialised equipment, e.g. food processor, blender, pasta machine (not electric	2
	beater or deep fryer)	
11	Any other skills not mentioned (to be used only twice in the same test)	1

PREPARATION: PLAN AN ORDER OF WORK (Please indicate different recipes in different colours)
TIME: 30 MINUTES (If you are finished in a shorter time, you may collect your ingredients and start your cooking)

TIME	PROCEDURE / METHOD

SCALE FOR ASSESSMENT

0-1 = Unacceptable

2-5 = Does not meet requirements

6-8 = Meets requirements/acceptable

9-11 = Exceeds requirements

12-15 = Excellent conceptualization of time schedule, Preparation of ingredients and equipment indicated, e.g. peel and chop onions, measure dry ingredients into a large mixing bowl, set oven, prepare baking trays. All the steps in each recipe briefly but clearly presented. Work on two or more dishes simultaneously
