

Preface by the HEAD: Education

From 2012 academic year, we put a turnaround organizational plan to achieve these three critical objectives, to:

- Create hope for the department to turnaround and perform maximally,
- Ensure unity of purpose among all employees, teachers and stakeholders in driving the core business of the department and
- Improve learner performance and academic achievement.
- Through collective leadership effort, we have partially achieved these three objectives and this has been shown by:
- Maximum participation of key stakeholders in decision making processes leading to observed stability in the year under review;
- Maximum participation by teachers in Numeracy and Literacy intervention projects as evidenced by the ANA results of 2012 and 2013.
- Improved Grade 12 results from 58% to 61.6% in 2012 and that has set a strong and firm foundation for 2013 academic year.

Then 2013 has been a year characterized by both good and challenging policy implementation issues. Because of our focus in transforming the operations of the department and an attempt to do issues that were never done since the inception of this department, we had to face issues head-on in order to provide teachers to the needy and deserving schools. We have further accelerated interventions in districts, compelling them all both on supervised fortnightly lesson preparation per subject and monthly accountability meetings focused on progress made in improving learner performance. In essence the results of the class of 2013, is the product of hardwork by all, viz: officials of the department, principals, teachers, stakeholders, parents, communities who supported learners in their Learner Attainment Improvement Strategy (LAIS) planned activities and projects.

To those who have not met their set targets, I want to reiterate that hard work breeds success.

Through thick and thin never give up, but continue working until you get good results. At the same time discipline is the foundation of success.

Serious introspection and the study of the culture existing in each school will make a reliable benchmark for improvement. All must know that

“the greatest glory in living lies not in never falling, but in rising every time we fall” (Dr. Nelson Mandela).

I expect that from the analysis of Grade 12 results of the class of 2013 and the analysis of Grade 11 results of the class of 2013 (current Grade 12 class), each district reviews its LAIS plan and focuses clearly on the subjects that are underperformed and at the same time ensuring improvement in others, because there is no limit in how high one can achieve in life. Let us work with all relevant stakeholders and focus our energies in supporting learners’ learning to improve their performance in all Grades. Each district must set high but realistic targets to improve learner performance in all grades and schools to follow suite under the tutorage of Circuit Managers.

I applaud teachers who have done good work in 2013 and also for always knowing that they are accompanying learners (whom we teach) on their journey to maturity. This means that by teaching them we are touching their lives daily. Indeed ***we can make a difference simply by choosing to do so. We can start our day by saying ‘I choose to make a difference today’ and see where that attitude takes us*** (Marie Russel). Teachers must double their efforts of improving learner performance in 2014. My approach is simply to say, let us all maximize our performance at all levels of operation with efficiency, effectiveness and speed required to improve academic performance of our learners in 2014. I subscribe to this phrase thus: ***“If a man is called to be a street sweeper, he should sweep streets as Michelangelo painted or Beethoven composed music, or Shakespeare poetry. He should sweep streets so that all the hosts of heaven and earth will pause to say, ‘here lived a great street sweeper who did his job well’*** (Martin Luther King Jr).

In 2014, I want all officials, managers, teachers and learners at all levels of this organization to focus and improve these 10 pillars in our schools (where principals have to lead):

- Support for system-wide improvement (specifically moving from theory to practice in everything being done);
- Quality of teaching and learning in all Grades;
- Effective instructional leadership and management;
- Creation of a climate in which teachers and learners conduct tuition work daily;
- Maximizing of tuition time at all costs to finish syllabus on time, as per the pace setters;
- A high priority given to learners' activities that promote effective learning and ultimately improvement of their academic performance;
- Sense of urgency in teaching and learning and in doing everything to improve learner performance;
- Frequent monitoring of the quality of tasks given to learners and their performance in all tasks given with immediate remedial work where necessary;
- Application of relevant and immediate interventions / projects as need arises; and
- Clear and collaborative relationships, especially interpreting and managing the external environment to improve learner performance.

In conclusion I call on all stakeholders to rekindle the fighting spirit for good results within the framework of Quality Learning and Teaching Campaign (QLTC) and particularly through the community supported learner camps in all schools of this province. Let all District Directors ensure in 2014 that learners are taught and that they also LEARN every day. Lastly, I urge you all to participate and play a meaningful role in ILIMA within QLTC approach, in improving learner performance significantly. To support this move, I am setting up District Intervention Teams to work with a Provincial Intervention Team to deal with underperformance in schools.

Essential to us all, 2014 is declared a year of action, accelerated accountability and improved learner results.

M.L. Ngonzo
Superintendent-General
07 January 2014

EXAMINATIONS IN THE EASTERN CAPE

1. INTRODUCTION

The National Senior Certificate which was introduced in 2008 and that had been plagued by systematic problems in the beginning is in its sixth year showing signs of stability. All stakeholders involved in this system are accustomed to the processes, expectations and standards have improved over the past six years. The 2013 cohort is the sixth group to write the National Senior Certificate Examinations. This cohort of learners was in Grade 1 in 2002 and were 284 283 in total. Out of this number of 284 283 only 74 980 were registered in Grade 12 which translates to 26.4% cohort survival rate. The cohort loss is 209 303 which translates to 73.6%. Furthermore only 72 138 out of 74 980 wrote examination which further reduces the cohort survival rate to 25.4%. However on a positive note, this cohort of learners has been declared as the most technologically advanced cohort of learners as per the Mike Saunders Survey.

Cohort Survival 2011		Cohort Survival 2012		Cohort Survival 2013	
Grade 1, 2000	295,809	Grade 1, 2001	295,809	Grade 1, 2002	284,283
Grade 12, 2011	71,777	Grade 12, 2012	72,354	Grade 12, 2013	77,602
Cohort loss	-224,032	Cohort loss	-223,455	Cohort loss	-206,681
Cohort survival %	24%	Cohort survival %	24%	Cohort survival %	27%
Cohort loss %	-76%		-76%		-73%
Gr 12 passes	37,997		39,443		Not Available
% cohort pass	13%		13%		0%

The main challenge of this system since its inception has been to ensure that learners leave school both literate and numerate and are able to learn new skills when they enter the work environment or higher education. Amongst strategies that have been introduced by the Department of Basic Education is the Education Sector Plan – *Action Plan 2014 towards schooling 2025*: which has as its objective to improve performance across the system. This plan has assisted in ensuring the sustained improvement in matric results. It is quite heartening to note that the Grade 12 National Senior Certificate pass rate in the Eastern Cape Province also improved in 2012 and this has raised more hope for the Province in 2013.

2. SCHOOL-BASED ASSESSMENT

In addition to the formal examination papers written at the end of the year, candidates are also expected to complete a variety of assessment tasks at school level. As in other grades, these requirements are spelt out in the Subject Assessment Guidelines (SAGs) for each subject and are meant to allow the candidates to work consistently throughout their Grade 12 year and to be rewarded by accumulating marks towards their final result. These assessment tasks cover a wide variety of activities.

All of these components are put together in a formula provided in the Subject Assessment Guidelines to produce the candidate's School Based Assessment mark. This is a vital component of the candidate's final result which constitutes 25% of the final mark and must receive continuous attention throughout the year. Having a completed SBA mark will contribute considerably to a candidate's achievement at the end of the year. Conversely, a candidate who does not work consistently throughout the year but expects to redeem his or her prospects in the final examination shall find it challenging to attain a good result. SBA tasks need to be taken seriously.

3. VERIFICATION OF IMPLEMENTATION OF SCHOOL BASED ASSESSMENT (SBA) AND ITS MODERATION

Verification and monitoring of implementation of School Based Assessment (SBA) is a mandate by the Department of Basic Education to all Provinces. The SBA mark has to undergo all processes of moderation and verification to ensure that it is valid, reliable and authentic. To ensure that all SBA moderation levels are observed, the Provincial SBA co-ordinator developed a SBA verification Programme which focused on on-site visits to verify implementation and moderation of SBA at the District, cluster and school levels. A sample of Districts and schools were monitored and verified.

DBE moderators visited the Province to moderate NSC Grade 12 SBA. This was done in June and in September 2013. In all occasions this was a great success. On 23 – 27 October 2013 the Centralized SBA Provincial moderation was successfully conducted. A sample of 16 subjects was moderated during this moderation session. This was done in two centres. Twenty Percent of the number of schools doing each subject in the Province was moderated.

4. WHAT ARE THE REQUIREMENTS FOR A NATIONAL SENIOR CERTIFICATE?

In order to obtain a National Senior Certificate the learner must:

- Offer seven approved subjects and provide full evidence of School Based Assessment for each subject.
- Complete the programme requirements for Grades 10, 11 and 12 separately and obtain distinct outcomes and associated standards for all the grades.
- Comply with internal assessment requirements for Grades 10, 11 and 12; and the external assessment requirements of Grade 12.
- Achieve at least 40% in three subjects, one of which must be an official language at Home Language level.
- Must achieve at least 30% in three other subjects.
- Provide full evidence of the SBA component in the subject failed.

5. RATING SCALE

A rating scale is used to summarise achievement. This is the same scale in use in Grades 10 and 11 and which will eventually be used throughout the schooling system when the new Curriculum and Assessment Policy Statements (CAPS) are fully implemented.

ACHIEVEMENT LEVEL	ACHIEVEMENT DESCRIPTOR	MARKS %
7	Outstanding Achievement	80-100
6	Meritorious Achievement	70-79
5	Substantial Achievement	60-69
4	Adequate Achievement	50-59
3	Moderate Achievement	40-49
2	Elementary Achievement	30-39
1	Not Achieved	0-29

6. MINIMUM ADMISSION REQUIREMENTS TO HIGHER EDUCATION

It must be emphasised that the minimum requirements for admission to Higher Educations are set by Higher Education Institutions (HEIs). HEIs are at liberty to raise these requirements at any time, depending on the number of applicants they receive. They are also at liberty to set their own entrance and placement tests and to set higher requirements for entrance into particular courses or fields of study. Some HEIs do not recognise particular subjects for selection processes into certain study areas. For example, Mathematical Literacy is not recognised in some HEIs for entrance into courses of study involving Engineering and Sciences. Candidates should consult the HEI of their choice to ascertain entrance requirements.

- **HIGHER CERTIFICATE (HC)**
 - NSC with minimum of 30% in the Language of Learning and Teaching (LOLT).
 - Institutional and programme needs may require additional combinations of recognized NSC subjects and levels of achievements.
- **DIPLOMA**
 - NSC with minimum of 30% in the Language of Learning and Teaching (LOLT).
 - Achievement rating of 3 (moderate achievement (40-49%) or better in four (4) recognized NSC 20- credit subjects.
 - Institutional and programme needs may require additional combinations of recognized NSC subjects and levels of achievement.
- **BACHELOR'S DEGREE**
 - NSC with minimum of 30% in the Language of Learning and Teaching (LOLT)
 - Achievement rating of 4 (adequate achievement, 50 - 59%) or better in four subjects chosen from the recognised 20-credit NSC subjects (which will be known as the designated subject list) below:

Accounting	Engineering Graphics and Design	Mathematics
Agricultural Science	Geography	Mathematical Literacy
Business Studies	History	Music
Consumer Studies	Information Technology	Physical Science
Dramatic Arts	Languages	Religion Studies
Economics	Life Sciences	Visual Arts

7. STATISTICS FOR THE NATIONAL SENIOR CERTIFICATE 2013

- **NUMBER OF FULL-TIME CANDIDATES AND EXAMINATION CENTRES**

The figures in Table 1.1 and Table 1.2 below provide a comparison of the number of candidates who have entered for the National Senior Certificate (NSC) examinations in the Province this year and last year. It is worth noting that the Eastern Cape has the fourth largest number of candidates for the NSC after Kwa Zulu Natal, Limpopo and Gauteng provinces.

TABLE 1.1**NUMBER OF FULL-TIME CANDIDATES ENROLLED FOR NSC IN 2011, 2012 and 2013**

Year	Number Full-time	Increase / Decrease
2011	68069	
2012	69427	1358
2013	74 980	5 553

The number of candidates has increased in 2013 when compared to 2012.

TABLE 1.2**NUMBER OF EXAMINATION CENTRES 2011, 2012 and 2013**

Year	Number of Centres	Increase / Decrease
2011	918	
2012	926	8
2013	926	

8. CHALLENGES

Despite many areas of excellence and a constant improvement in systems and processes through examinations and assessment in the Eastern Cape, there are a number of areas of serious challenge which bear mentioning.

- Irregularities

2013 Grade 12 November / December irregularities have shown a decrease and were well managed. This is attributed to the training workshops that the Province cascaded in preparing for proper management and handling of irregularities. 'Train the Trainer' workshop: this year's train the trainer workshop was staggered into three clusters according to the three Provincial District Cluster Chief Directorates A; B; and C.

Chief Invigilators from Independent schools; part time centres and problematic public schools from all 23 districts were part of the training, and were trained directly by the provincial office.

Marking Centre Irregularities Investigator training workshop: The Province is still using Irregularities Investigators instead of Deputy Centre Managers at marking centres. They were trained on the procedures for managing and handling irregularities discovered at marking centres. The workshop took the form of an advisory/ review workshop where one was given a chance to highlight his / her challenges and advice was given where necessary.

Chief Marker's training workshop: The Chief Markers were also thoroughly trained by the Provincial Irregularities Office on how to identify, manage and handle irregularities. These training workshops were focusing on critical areas that could lead to irregularities, such as registration related issues; script control measures; monitoring procedures and handling of concessions. There are administrative errors or omissions such as late start and candidates that wrote incorrect subject levels, as well as behavioural offences and acts of dishonesty, such as crib notes etc. However due processes are being followed in such cases, for instance in candidates who wrote incorrect subject levels the Province has applied for Umalusi lost script concession for these candidates to be resulted and still waiting for the response from Umalusi via Department of Basic

Education as per the policy. Candidates that were involved in cribbing their results are blocked in the system (withheld) pending the completion of investigation which will involve charging and conduct of disciplinary hearings. The Province has tried its level best to ensure proper registration of all candidates before the exams but few cases of unregistered candidates were discovered during marking. These few cases were resolved and all such candidates were registered in the system.

The Provincial Irregularities Office once more wishes to extend a word appreciation to all officials at provincial, district offices and in Marking Centres for their tireless dedication as far as the management and the handling of irregularities. Steady but surely the Province is heading towards an irregularities free examination.

- **POLICIES NOT ADHERED TO**

Policies are only as good as the paper they are written on if they are not adhered to. If, for example, unauthorised persons are allowed free access into restricted areas, then the policy on security of examination materials becomes unenforceable and ignored, which could lead to a major breakdown. Similarly, if staff members charged with implementing policy either chose to ignore policy or do not know the policy, their actions become subject to judicial review, which may be both unnecessary and wasteful. Implementation of policies that impact on the credibility of the examination processes such as, Subject Changes, Invigilation and Script Control, must remain a priority for all staff members. Staff training and re-training on policy requirements is a necessity which has been recognised.

- **NON-PROVISION OF LEARNER AND EDUCATOR EVIDENCE TO BACK UP SBA MARKS**

All educators and candidates are required to keep complete records of all assessments that take place. This does not mean that bulky folders are required to be kept, but during moderation it is a requirement that tangible evidence of learner performance can be produced to substantiate the grades awarded to candidates. It is often the case that when evidence of performance is required schools, educators and candidates are unable to produce it. This leads to an undermining of the credibility of the School-based Assessment mark and to suspicions that educators have not completed learning programmes and that the marks provided are mere guess work. This can have severe consequences for all candidates in the Province as UMALUSI is quite entitled to refuse to certify results as credible and allow them to be released if there is sufficient concern that they may be bogus.

Fortunately, this challenge is not widespread in this Province, but remains an area which requires constant attention to ensure that requirements are met.

9. CONCLUSION

The purpose of the Examinations and Assessment Directorate is to deliver a credible, effective and efficient examination and assessment service to its users. This, despite the many challenges the Directorate faces, it has managed to continue to provide in 2012 and will no doubt, continue to provide in the years to come. Our commitment to service delivery and to service excellence remains unswerving.

Working together we can achieve more.
