FOREWORD

The Class of 2021 will remember their Grade 12 year as one of challenge and triumph. The challenge was coping with the unknowns of new Covid-19 variants and managing its subsequent effects on learning. The triumph was overcoming learning loss and maintaining high academic discipline. The results of class of 2021 is a triumph for the learners who participated and the society that supported them. The response of the Department with the support of parents and their communities to insulate this class from potential harm and safeguard their right to education's promise of a better future, has borne fruit. In 2021, we celebrate and salute this second cohort who wrote the National Senior Certificate under COVID-19 protocols yet delivered a miraculous achievement of improving performance, enabling a successful gateway to their further studies and the world of work.

The Quality Assurance Council, Umalusi, approved the 2021 NSC results. It must be noted that the approval was preceded by meticulous verification of all examination processes. South Africa offers a credible public examination system, comparable internationally. The National Senior Certificate has again stood the test of time and after 12 years of teaching and learning, this qualification holds intrinsic value for both individuals and society as a measure of advocated success.

The Class of 2021 had a number of success stories. There was a significant increase in the number of full-time enrolments in 2021 increasing from 610 484 in 2020 to 733 917 in 2021. This difference of 123 487 candidates allays the concern that there would have been a significant dropout of learners in 2020 and 2021, given the COVID-19 pandemic. There were improvements in Mathematics and

Physical Science by more than 3 percentage points over their 2020 counterparts; a testament to government's priority of equipping South African learners with relevant skills and knowledge for a changing world. These improved learner performance trends are in keeping with notable improvements patterns observed at the Grade 5 and Grade 9 levels in the Trends in International Mathematics and Science Study (TIMSS) over the last 10 years. The overall pass rate in this examination improved from 76.2% to 76.4% and more than a third of candidates who wrote will be able to pursue career interests at a University.

Realizing the rights of persons with disabilities is crucial to fulfilling the core promise of the National Development Plan's Vision 2030: to leave no one behind. In 2021, South African Sign Language Home Language (SASL HL) candidates sat for the fourth SASL HL examinations in the National Senior Certificate Examinations. I am pleased to report that a total of 879 learners with special needs attained admission to Bachelor studies, 636 achieved admission to diploma Studies, and 314 achieved admission to higher certificate studies.

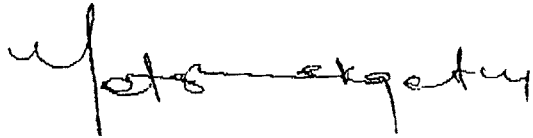

A dynamic education system keeps abreast with the demands of the fourth industrial revolution. In 2021, Marine Sciences was offered for the first time as an examinable subject in the Grade 12 NSC examinations. Various technical vocational specialisations, Technical Mathematics and Technical Sciences were offered for the fourth year since their introduction in 2018. A remarkable improvement in the 2021 NSC results was noted in both Technical Sciences and Technical Mathematics. This bodes well for our recent initiatives on introducing robotics and coding in earlier grades.

Once again, I wish to thank parents, teachers, principals, teacher unions, communities, district and provincial officials, and social partners for carrying the Class of 2021. I believe that our unity will make us find new frontiers of cooperation and innovation. I am confident that by working together

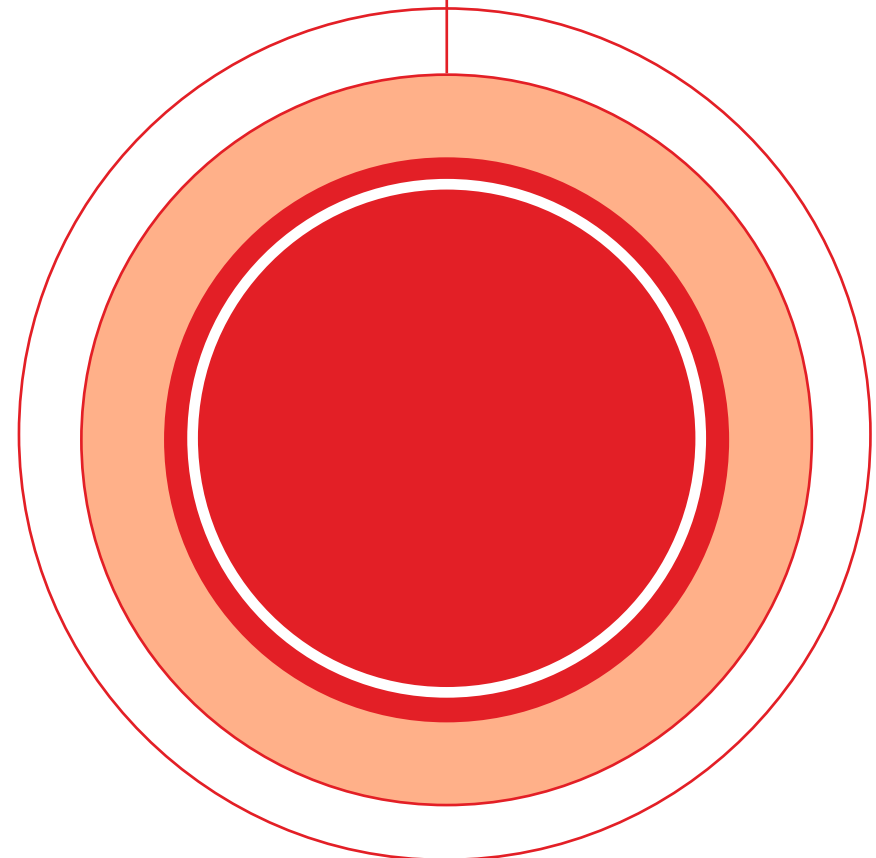

yet again, we can support the Class of 2022 in the manner that we supported their predecessors. The magnanimous act of society seeks to fulfill the Freedom Charter's clarion call that: 'The Doors of Learning and Culture Shall be opened!'

It is my express desire that every school will use this School Subject report to monitor their performance in relation to other comparable schools across the country and that this report will also serve as a valuable source document to all officials that provide support to our schools.

MRS AM MOTSHEKGA, MP
MINISTER OF BASIC EDUCATION

1. Introduction

This edition of the Schools Subject Report comprises the 2021 NSC subject results for all schools in every province. These results are consolidated into a single reference document that allows all stakeholders to review, monitor and track subject performance of the schools in their respective local communities. This report provides historical data on the performance of the 11 gateway subjects.

In order to enable a comparative analysis, subject performance data for both 2020 and 2021 are provided. This report is a useful resource that can inform the design and implementation of appropriate interventions at school, district and provincial levels.

This report should be read in conjunction with the following complementary reports on the 2021 National Senior Certificate examination published by the Department of Basic Education:

- a) The 2021 National Senior Certificate Examination Report;
- b) National Schools Report that presents the overall school results over three years; and
- c) National Diagnostic Reports which provides an analysis learner performance in the 11 Gateway Subjects, the 11 Home Languages and Technical subjects; which identifies areas of poor performance, and recommends appropriate remedial measures in each of the subjects.

Together these four reports aim to provide a comprehensive overview of learner, school and subject performance on the 2021 NSC.

2. Scope Of The Schools Subject Report

The Schools Subject Report presents performance data in the following 11 gateway subjects: Accounting, Agricultural Sciences, Business Studies, Economics, English First Additional Language (FAL), Geography, History, Life Sciences, Mathematical Literacy, Mathematics and Physical Sciences.

Candidates' performance in these gateway subjects, at a national level over the last two years, precedes the summary table of candidates' performance in these subjects in each education district. This detailed set of data is provided to every school to enable them to measure progress made and evaluate reasons for upward or downward performance trends in 2020 and 2021.

3. Utilisation Of The Schools Subject Report

This report should be used by school managers, subject advisors, curriculum specialists and district planners to analyse a subject's overall performance within a school, and at cluster, circuit or district level. This report helps education stakeholders to identify the specific subjects where performance is poor and to ensure appropriate interventions are introduced. Where subject performance shows an upward trend within a school, circuit, district or province, the stakeholders must use the opportunity to identify the factors that have contributed to improved performance in specific subjects and consider how these best practices can be shared with other teachers in the school where performance is low as well as with other schools in that are performing poorly. The data may also be used to track learner performance in 2022 to ensure that their learners improve poor performance or maintain high performance. Early identification of poor performance will enable all stakeholders to implement appropriate interventions early enough to ensure the necessary impact thereby maintaining high levels of performance or improving performance.

School communities also have the opportunity to identify teacher capacity building needs and invest in this. A review of current equipment and curriculum resources needs is also necessary to ensure that the school is adequately resourced to harness the collective efforts and potential of teachers and learners so that they are motivated to improve upon their 2021 performance in selected subjects.

4. Summary Of Candidates Performance In Gateway Subjects

4.1 NATIONAL PERFORMANCE IN 11 MOST POPULAR SUBJECTS: 2017-2021
