Candidates also forfeited marks for Originality as they did not attempt to make examples that impacted on the essay.

**(c) Provide suggestions for improvement in relation to Teaching and Learning**

- Provide one common prescribed textbook/resource to be used by all schools across the province.
- The same resources that are available to English learners must be made available to Afrikaans learners because the majority of them performed poorly in this examination.
- Teachers must give more informal assessments that includes scenarios for learners to apply knowledge gained.
- Learners who are performing very good for assessments during the year must be encouraged to study at least four facts under each heading, while poor performing learners must be encouraged to study three facts.
- Teachers must emphasize that quotes from scenarios must be in full sentences.
- Special attention must be given by teachers when teaching the criteria that could contribute to the success and/or failure of the different forms of ownerships.
- The criteria that could contribute to the success and/or failure must be emphasized as learners still find it difficult to master this topic in Grade 12.
- Questions on the Human Rights, Inclusivity and Environmental Issues Topics are still poorly answered in general. Teachers must also emphasize this topic and revise questions in preparation of the final examination.
- For the Essay questions teachers must emphasize that learners only write facts that are relevant to the bullets (questions) asked.
- Teachers must train learners in Grade 10 already on how to structure their essays according to LASO.
- Teachers must be guided by the CAPS document and the Examination Guidelines of 2021 when teaching a topic. The Examination Guideline must always be consulted.
- Chief Marker's Report must be discussed with all teachers to avoid repeating mistakes.
- Subject Advisors and teachers involved in the marking processes of the grade 12 final examinations must provide feedback sessions at the beginning of the new school year on the marking guideline and marking processes in their districts, e.g., the use cognitive verbs and questions from the same topics that candidates confused in the question paper.
- Teachers must remind learners that incomplete/vague facts will result in the forfeiture of marks.
- Provide resources that are structured according to the examination Guidelines to all under-performing schools.
- Resources, e.g., question papers, from other Provinces should also be used to prepare learners.
- Essays questions, e.g., facts for introduction and conclusion and originality examples must be brainstormed in the classroom.
- For Originality, teachers must brainstorm relevant and recent examples with the learners, e.g., allowing them to Google recent examples on the internet.
- For the Introduction and Conclusion of Essays, teachers must emphasize that facts for the Introduction and Conclusion must link to the bullets in the Essay question.
- Previous Question papers and Marking Guidelines must be used by teachers when preparing learners for the final examinations, e.g., classwork and homework should be taken from previous questions papers to familiarize learners on how questions are set.

- The latest Examination Guidelines should be streamlined for essays in a three-year cycle, i.e., topics and content to be taught for essay assessment should be indicated, e.g., Legislation – five Acts must be assessed for essays and four Acts for Section B only.
- Make teachers and learners aware that lower cognitive questions are assessed in Section B and that under-performing learners should study concepts and headings as well to obtain marks, e.g., factors to be considered when making investment decisions

**(d) Describe any other specific observations relating to responses of learners and comments that are useful to teachers, subject advisors, teacher development etc.**

- Facts that are vague or incomplete are of huge concern. Learners must be reminded that incomplete/vague facts will result in them forfeiting marks.
- The vague or incomplete answers could be ascribed to the language barrier experienced by the learners of the Eastern Cape. Candidates are unable to express/articulate themselves clearly.
- In the essay questions, it is noted that candidates could not be awarded any marks for originality because of a lack of current examples or trends. The Introduction and Conclusion is also a concern as candidates are unable to score marks in these sections.
- Teachers must be clear when teaching the following:
  1. Criteria that could contribute to the success and/or failure of the different forms of ownerships.
  2. Role of the health and safety officers.
  3. The Topic of Human Rights, Inclusivity and Environmental Issues.

### MARKING GUIDELINE

**MARKS: 150**

Approved  
DBE: Internal Moderator  
2022/12/01

This marking guideline consists of 30 pages.

**NOTES TO MARKERS****PREAMBLE**

The notes to markers are provided for quality assurance purposes to ensure the following:

- (a) Fairness, consistency and reliability in the standard of marking
- (b) Facilitate the moderation of candidates' scripts at the different levels
- (c) Streamline the marking process considering the broad spectrum of markers across the country
- (d) Implement appropriate measures in the teaching, learning and assessment of the subject at schools/institutions of learning

1. For marking and moderation purposes, the following colours are recommended:

Marker:	Red
Senior Marker:	Green
Deputy Chief Marker:	Black/Blue
Chief Marker:	Pink
Internal Moderator:	Orange
DBE Moderator:	Turquoise

2. Candidates' responses must be in full sentences for SECTIONS B and C. However, this would depend on the nature of the question.
3. A comprehensive marking guideline has been provided but this is by no means exhaustive. Due consideration should be given to an answer that is correct but:
  - Uses a different expression from that which appears in the marking guideline
  - Comes from another credible source
  - Original
  - A different approach is used

**NOTE: There is only ONE correct answer in SECTION A.**

4. Take note of other relevant answers provided by candidates and allocate marks accordingly. (In cases where the answer is unclear or indicates some understanding, part-marks should be awarded, for example, one mark instead of the maximum of two marks.)
5. The word 'Sub-max' is used to facilitate the allocation of marks within a question or sub-question.
6. The purpose of circling marks (guided by 'max' in the breakdown of marks) on the right-hand side is to ensure consistency and accuracy in the marking of scripts as well as for calculation and moderation purposes.
7. Subtotals to questions must be written in the right-hand margin. Circle the subtotals as indicated by the allocation of marks. This must be guided by 'max' in the marking guidelines. Only the total for each question should appear in the left-hand margin next to the appropriate question number.
8. In an indirect question, the theory as well as the response must be relevant and related to the question.

9. Correct numbering of answers to questions or sub questions is recommended in SECTIONS A and B. However, if the numbering is incorrect, follow the sequence of the candidate's responses. Candidates will be penalised if the latter is not clear.
10. No additional credit must be given for repetition of facts. Indicate with an 'R'.
11. The differentiation between 'evaluate' and 'critically evaluate' can be explained as follows:
- 11.1 When 'evaluate' is used, candidates are expected to respond in either a positive/negative manner or take a neutral (positive and negative) stance, e.g., **Positive:** *'COIDA eliminates time and costs spent√ on lengthy civil court proceedings.'√*
- 11.2 When 'critically evaluate' is used, candidates are expected to respond in either a positive/negative manner or take a neutral (positive and negative) stance. In this instance candidates are also expected to support their responses with more depth, e.g., *'COIDA eliminates time and costs spent√ on lengthy civil court proceedings√, because the employer will not be liable for compensation to the employee for injuries sustained during working hours as long as it can be proved that the business was not negligent.'√*
- NOTE:** 1. The above could apply to 'analyse' as well.  
2. Note the placing of the tick (√) in the allocation of marks.
12. The allocation of marks must be informed by the nature of the question, cognitive verb used, mark allocation in the marking guideline and the context of each question.
- Cognitive verbs, such as:
- 12.1 Advise, name, state, outline, motivate, recommend, suggest, (*list not exhaustive*) do not usually require much depth in candidates' responses. Therefore, the mark allocation for each statement/answer appears at the end.
- 12.2 Define, describe, explain, discuss, elaborate, distinguish, differentiate, compare, tabulate, analyse, evaluate, critically evaluate (*list not exhaustive*) require a greater depth of understanding, application and reasoning. Therefore, the marks must be allocated more objectively to ensure that assessing is conducted according to established norms so that uniformity, consistency and fairness are achieved.
13. Mark only the FIRST answer where candidates offer more than one answer for SECTION B and C questions that require one answer.

**14. SECTION B**

14.1 If for example, FIVE facts are required, mark the candidate's FIRST FIVE responses and ignore the rest of the responses. Indicate by drawing a line across the unmarked portion.

**NOTE:** 1. This applies only to questions where the number of facts is specified.  
 2. The above also applies to responses in SECTION C (where applicable)
